

If you believe that:

- Democracy depends on citizen participation,
- Alaskans have a lot of good ideas that should be shared,
- Polarization is not the way our communities and state should function, and
- By respectfully exchanging ideas with one another, we can work toward solving the problems facing our community, state, and nation;

Alaska Common Ground invites you to join us in an effort to enhance our democratic way of life by engaging Alaskans in respectful conversations. We work to build a better understanding on important public policy issues through forums, group discussions, policy papers and public service announcements.
