

# From Here to the Future: Transforming Anchorage/Mat-Su Transportation

The transportation series finished with the Policymakers' Panel on May 9th. Links to all presentation slides and audio links from all events are available below. Links to audio and video are also below where available.

There is a community workshop hosted by AMATS on Saturday, November 18th starting at noon to discuss Anchorage's non-motorized plan. Vision and goals on Anchorage's non-motorized plan for pedestrian, bike, and trail infrastructure. [More information here.](#)

There were many suggestions for next steps for you to get involved in transportation planning. If you have any other suggestions please let us know.

## Ways to get involved with transportation planning:

- [AMATS \(Anchorage Metropolitan Area Transportation Solutions\)](#) is the planning organization for our area. You can find out what projects are underway and how to get involved.
- The [Federation of Community Councils](#) will help you find your local Community Council and a direct way for citizen participation.
- [Mat-Su's Long Range Transportation Plan](#) is in the process of being updated. **The public process closed on May 12th.**
- The METROPOLITAN TRANSPORTATION PLAN (MTP) 2040 UPDATE FOR ANCHORAGE AND CHUGIAK-EAGLE RIVER (MPT 2040) casts the vision for what transportation will look like in the region for the next 20 years. By identifying and prioritizing transportation improvements, MTP 2040

addresses goals for a safe and efficient transportation system, transportation choices, support of the local economy, and enhancing our quality of life. Continuous public participation is key to the success of the MTP 2040. We need your input and participation to help shape our transportation future. [Sign up today to receive news and information about the MTP 2040 process](#). To ensure you receive all the information about the MTP update, make sure you sign up for the [MTP 2040 email list](#), even if you are on the existing AMATS email list. Visit our [website](#) at [www.mtp2040.com](http://www.mtp2040.com).

- You can also write to [amatsinfo@muni.org](mailto:amatsinfo@muni.org) to get put on the AMATS mailing list for updates on planning projects and opportunities for public participation.
