

Member Survey Results

Thanks again to all of our members and guests who attended Alaska Common Ground's 2018 Annual Meeting in April and to our members who participated in our recent membership survey. Both provided an invaluable opportunity for us to

hear how you think we are doing and what topics you would like us to feature in the future.

Housing, fiscal policy, criminal justice reform, oceans, food security, and the upcoming ballot measures were among the ideas discussed. Additionally, this word cloud shows what our members highlighted as most valuable to them about their experience with ACG, from our neutrality, to staying informed on important issues.
