Fiscal Policy

**Alaska Common Ground** has sponsored numerous fiscal policy forums that have included many state experts and visionaries. All of the forums were videotaped and several were televised statewide. Additionally, ACG members have made presentations about how our state budget works.

You can find a list of our events below with links to video.

Check out Vic Fischer’s testimony to the House State Affairs Committee on Tuesday, May 7, 2019. Our last living delegate to the first constitutional convention spoke passionately about the constitution and the Governor’s proposed amendments.

In 2015 ISER has prepared a *Fiscal Planning Model*. This model is designed to help people better understand the fiscal challenges Alaska’s state government faces, Scott Goldsmith, professor emeritus of economics at ISER, has created this interactive planning model Alaskans and others can download and use to investigate for themselves the implications of different assumptions about state revenues and fiscal policies.

**Alaska Common Ground** worked with the *Institute on Taxation and Economic Policy* to produce two papers on taxation in Alaska, “Hard Choices: Revenue Raising Options for Alaska” and “The Impact of Three State Revenue Options for Alaska.” These papers examined who would be most affected by the several taxation plans being considered by the legislature. You can find several papers discussing Alaska here.

**Alaska Common Ground** continues to work toward the establishment of a long-term fiscal plan for the state.

Past Forums (month/year):

- [Alaska’s Fiscal and Economic Circumstances: Even More](#)
Dire (5/20)
- From Conflict to Compromise: Four Debates on Alaska’s Fiscal Options (2/20)
