Anchorage faces a shortage of diverse housing options that are affordable for many of its residents. Ensuring citizens of all income levels, abilities, and phases of life have access to safe, quality, and affordable housing is critical to achieving a vibrant, economically thriving city that residents desire to live in for the long-term. Alaska Common Ground hosted a 3-part series and discussed the latest findings on Anchorage's housing needs—for today and the future—with a focus on workforce, senior, supportive, and low-income housing.

March 4 – The Current Supply & Demand

We discussed the latest findings on Anchorage's housing needs—for today and the future—with a focus on workforce, millennials, senior, supportive, and low-income housing. [Listen to the audio here.](#)

March 18th event was recorded in three segments you can find below.

- The first includes our welcome, Thea's introduction, and the start of Shanna Zuspan's presentation (and is unfortunately sideways!).
- The second includes the rest of Shanna's presentation through Tim Potter's presentation.
- The third segment is Greg Cerbana's presentation.

Alaska Common Ground is at the Anchorage Museum at Rasmuson Center for the second event in our housing series on Anchorage's "housing continuum." We are excited to welcome experts from the public and private sectors to speak about housing innovations – and challenges – in meeting our community's unique supply and demand issues.
