YES ON 2

FOR BETTER ELECTIONS

SCOTT KENDALL & ANDREW HALCRO

ALASKA COMMON GROUND DEBATE
October 14th, 2020

TODAY'S PRESENTATION

PROBLEMS

Broken Primaries
Winners without Majorities
Dark Money

SOLUTION

YES on Measure 2:
Commonsense Reform

QUESTIONS

PROBLEM #1

ROKEN PRIMARIE

PROBLEM

Alaskans have to choose a party ballot
instead of the best candidates.

*...including the **60%** of Alaskan voters who are **nonpartisan/undeclared***

Party primaries incentivize extreme
campaigns **instead of solutions.**

SOLUTION

SOLUTION

1. All candidates for state and US Congressional office compete on the **SAME BALLOT** used by all Alaskan voters.
1. The **TOP 4** vote-getters, regardless of party, advance to the general election.

RESULT:

More choice for Alaskans, from the 4 best candidates

PROBLEM #2

**WINNERS
WITHOUT
MAJORITIES**

PROBLEM

Alaskans aren't governed by majority winners.

Example: No candidate has won a majority of the vote in the general election for a U.S. Senate seat since 2002.

**Candidates run negative campaigns
instead of building consensus solutions.**

—	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

SOLUTION

1. Majority Winners every time.
1. More choices, not “spoiler” candidates.

RESULT:

Positive campaigns, bridge building, and competition.

PROBLEM #3

DARK MONEY

PROBLEM

TRUE SOURCE

INTERMEDIARY

**INDEPENDENT
EXPENDITURE
GROUP**

SOLUTION

SOLUTION

Alaskans deserve transparency in election spending.

**81% of
Alaskans agree.**

SOLUTION

1. Require campaigns to disclose the TRUE SOURCE of contributions.
1. Both donors and recipients are required to disclose contributions GREATER THAN \$2,000 within 24 hours.
1. Any group receiving more than 50% of its funding from OUTSIDE ALASKA must include that information on a disclaimer in all communications.
