A very interesting and notable point is that 90% of these withdrawals came after 5 years, or 100% vested. People waited to leave until they could take all of their employer contributions?

A PROPOSED SOLUTION SENATE BILL 88

A Retirement System with Reasonable Costs and Fair Benefits

- ***Strength of a United Coalition
vs.
Single Employee Groups***
- ***Safeguards in Place to
Prevent Underfunding***
- ***Cost Savings***

OPPOSITION

Billionaire funded groups are spending hundreds of thousands and preaching to the public...

- ***They say switching to a DC system was a smart decision and changes have been positive.***
- ***They are pushing scare tactics that passing SB 88 will lead to increased taxes and financial distress.***

CONCLUSION

- The Defined Contribution system is **NOT** working!
- The previous changes resulted in today's staggeringly **HIGH** public service agency **VACANCY** rates.
- Has affected public safety, education, state services, road maintenance, licensing, permitting, public assistance, foster care and more.
- Alaska's **workforce challenges**, recruiting and retaining public workforce are the **primary motivation** driving this legislation.
- **Pensions remain the BEST** fiscal **choice** for the state to meet these goals: Recruitment and Retention.
